- Technical box with good accessibility via lockable folding or sliding doors
- Spacious cable duct

Comfortable dealing desk

- Desk as single workstation or linked in groups
- Extremely comfortable and flexible for users and technicians
- Spacious legroom
- Desk height adjustment

Certified according to Greenguard gold Guidelines

F-Com | From the simple office desk to the comfortable computer workstation with or without height adjustment. With use of a retrofit kit, the F-Com can be converted or expanded at any time without dismantling the monitors. The almost limitless modularity and extensive range of accessories provide maximum flexibility. The desk also remains stable with little vibration when the maximum number of screens are mounted. It offers lots of space for technology and plenty of legroom. The F-Com desk system is equally suitable for offices, dealing rooms and control centres. The high requirements of the applicable workplace guidelines, such as European standard EN 527-1:2011, are not only met but even exceeded.

- High degree of ergonomic comfort, timeless and light design
- Available in various sizes – manufactured to the customer's requirements
- Very stable construction – even in the standing position
- Modular: from the office desk to the dealing or control room workstation
- Height-adjustment mechanism can be operated via mouse, panel or Bluetooth
